Goals for my care

People see chiropractors for a variety of reasons. Some go for relief of pain, some to correct the cause of pain, and others for the correction of whatever is malfunctioning in their bodies. Your Doctor will weigh your needs and desires when making recommendations for care. Please check the type of care desired so that we may be guided by your wishes whenever possible:

Relief Care - symptomatic relief of pain or discomfort

Corrective Care - correcting and relieving the cause of the problem as well as the symptoms

Comprehensive Care - bring whatever is malfunctioning in the body to the highest state of health with chiropractic adjustments

I want the Doctor to select the type of care appropriate to my health status.
